

345

345 LED Pendant

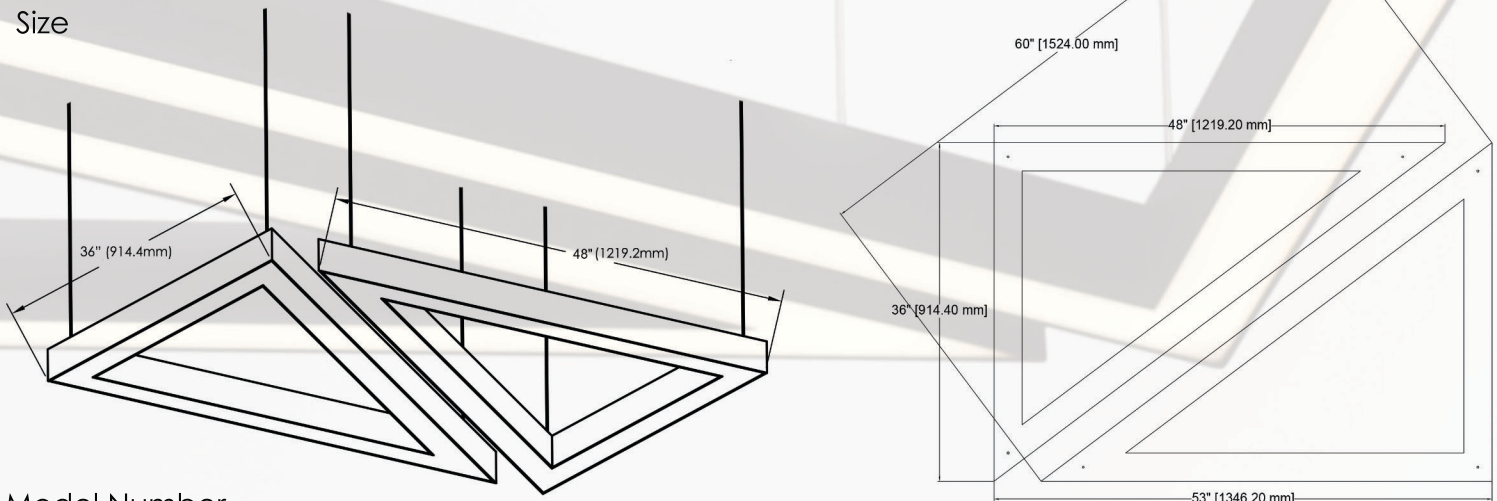

Description

The 345, inspired by Pythagoras Theorem is a modern and striking LED pendant luminaire. The fixture comes standard as a pair of two triangles but can be ordered as a single triangle. The fixture is cleverly designed with no visible power source or power cord giving the illusion of the luminaire floating in mid-air.

Standard size of each triangle is 3 foot by 4 foot by 5 foot (long leg of the triangle). The size being in the name of the fixture. As each fixture is made to order the size can be changed to suit the needs of each individual project. Fixture can be ordered in a variety of finishes and LED color temperatures.

Designed by Maurice Dery

Note: Not all options are available for all models of lighting fixtures

Specifications

345 Specifications Standard Lumen Output	
Voltage	24 V DC
Wattage	36 watts
Lumen Output	~2980 lumens
Light Source	Karice LED Tape Module
CRI	91 + CRI

345 Specifications High Lumen Output	
Voltage	24 V DC
Wattage	54 watts
Lumen Output	~4600 lumens
Light Source	Karice LED Tape Module
CRI	91 + CRI

Note: Specs are based on a single 345 Triangle not a pair.

Finishes

Standard finish options, custom finishes available
