## Da Vinci Vitruvian Table Lamp

### Description

The Da Vinci Collection is based on the challenging premise of using modern technology to create an original avant-garde suite of luminaire pieces that accurately portray the spirit of what Leonardo was doing in the late 15th and early 16th centuries.

The Vitruvian Table Lamp speaks to the geometric purity and deconstructed anatomy of the Vitruvian Man.

Materials include the use of genuine brass that has been patinaed along with blackened aluminum.
