## Luxennea Diamond S2

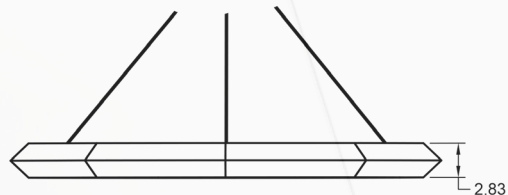

### Description

The Diamond Luxennea Series 2 is our new release of an already popular lighting design. A sculptural masterpiece with 45 degree facets creates a spectacle of visual interest. When the light is pointing inwards and down, the light is fully functional to create the perfect mood lighting for your dining experience.

The light is composed 9 faceted sides on the inner and outer diameters, a simple enneagon geometric shape is perfect for today's modern home.

The light is illuminated with LEDs that gives the light high lumen efficiency, low power consumption, and long life.

Designed by Maurice Dery
