

Expanse

Expanse Linear Pendant

Description

Modern, modular, and minimalistic, Expanse brings a fresh approach to linear lighting. Using an entirely new production methodology, we have re-imagined linear lighting with modularity and elegance in mind. Expanse comes standard with our high output LED option and an acrylic lens/diffuser for visual comfort. Unique to Expanse is the integration of the LED driver within the fixture body. This allows for low profile canopy installations. The braided cloth cord suspension and other fine details make Expanse a stylish linear solution.
