New Product Launch

# SPRING 2022

Area 49 + Eclipse + Expanse + Frame + Pearl

# ABOUT KARICE

Lighting for retail, residential, hotel, office, showrooms, hospitality and light-art installations since 1993. Karice has the experience and knowledge to meet your project needs.

All in-house design, quality control, engineering, prototyping and production is handled at Karice headquarters in British Columbia, Canada.

# OVERVIEW

Page 4      Area 49

Page 5      Eclipse

Page 6      Expanse

Page 7      Frame

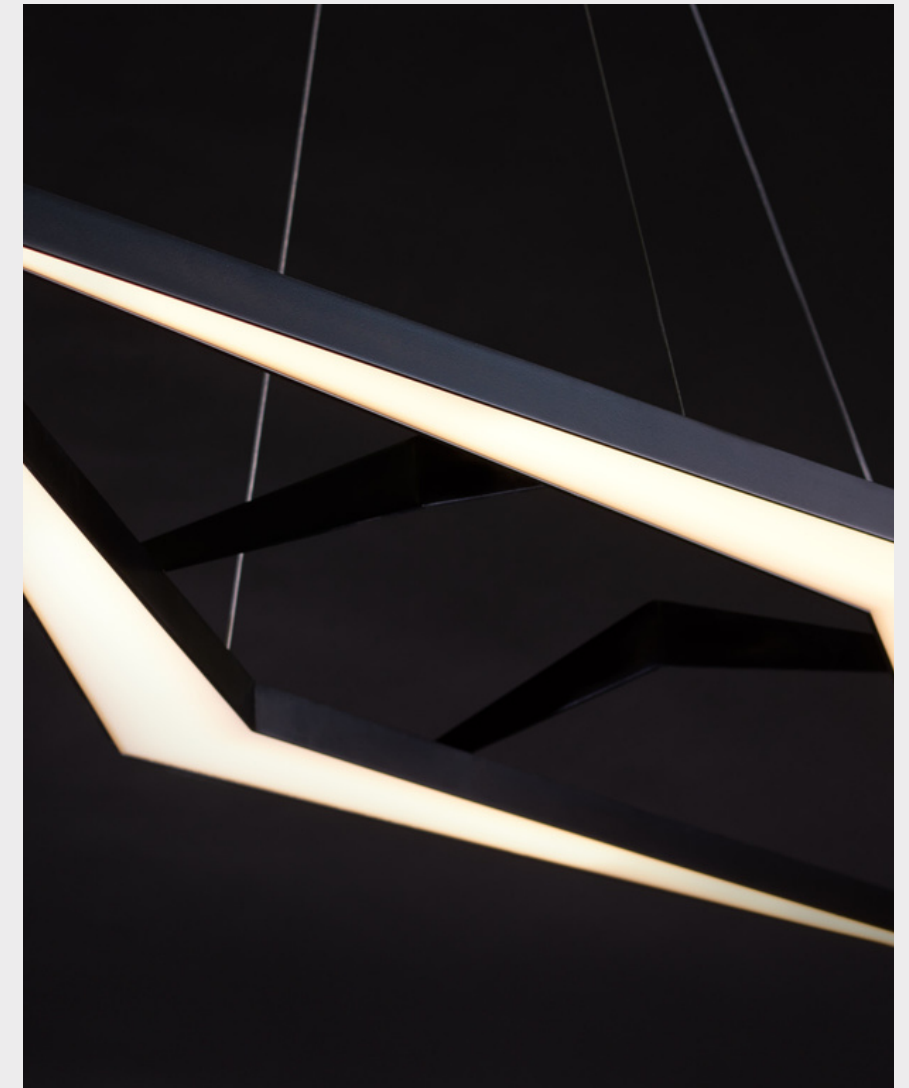

Page 8      Pearl

# AREA 49

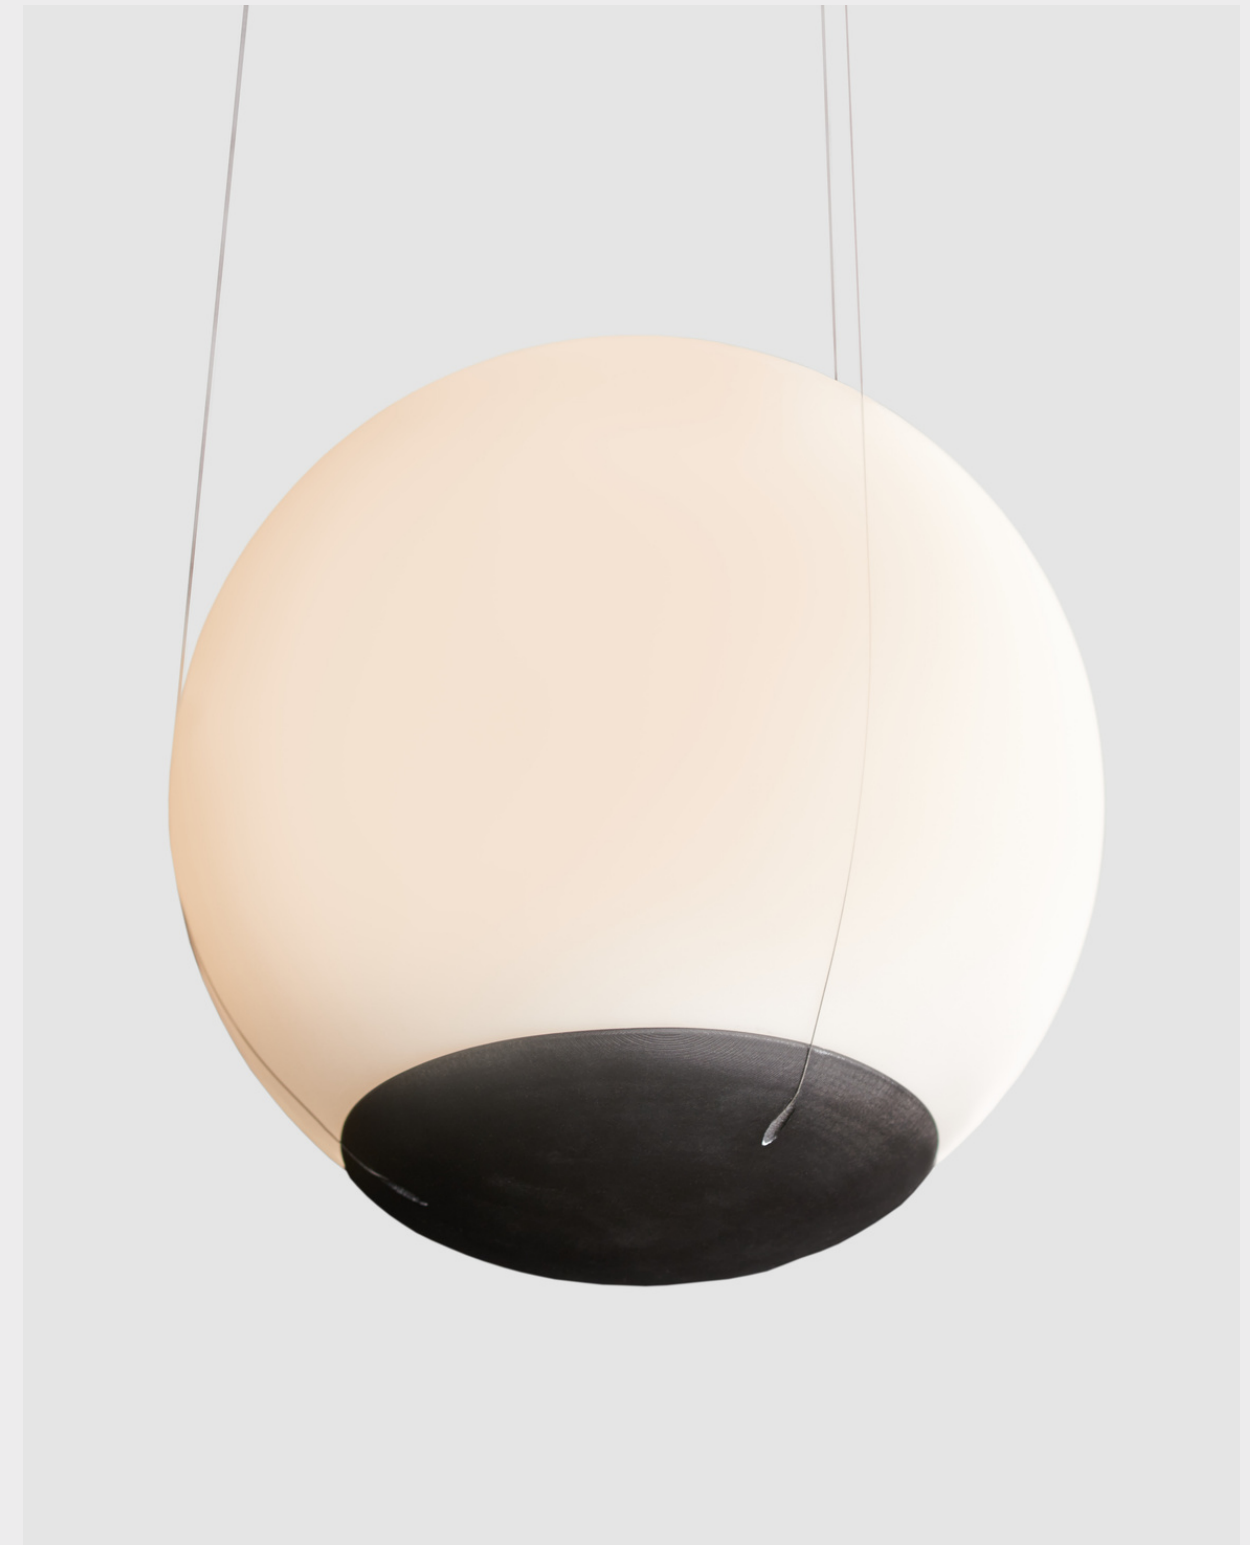

Inspired by geometry, AREA 49 is a double chevron shaped pendant. Its form evokes the feeling of a sleek spacecraft. The name plays on mysterious sightings at Area 51, with 49 representing our geological location on the 49th parallel.

# ECLIPSE

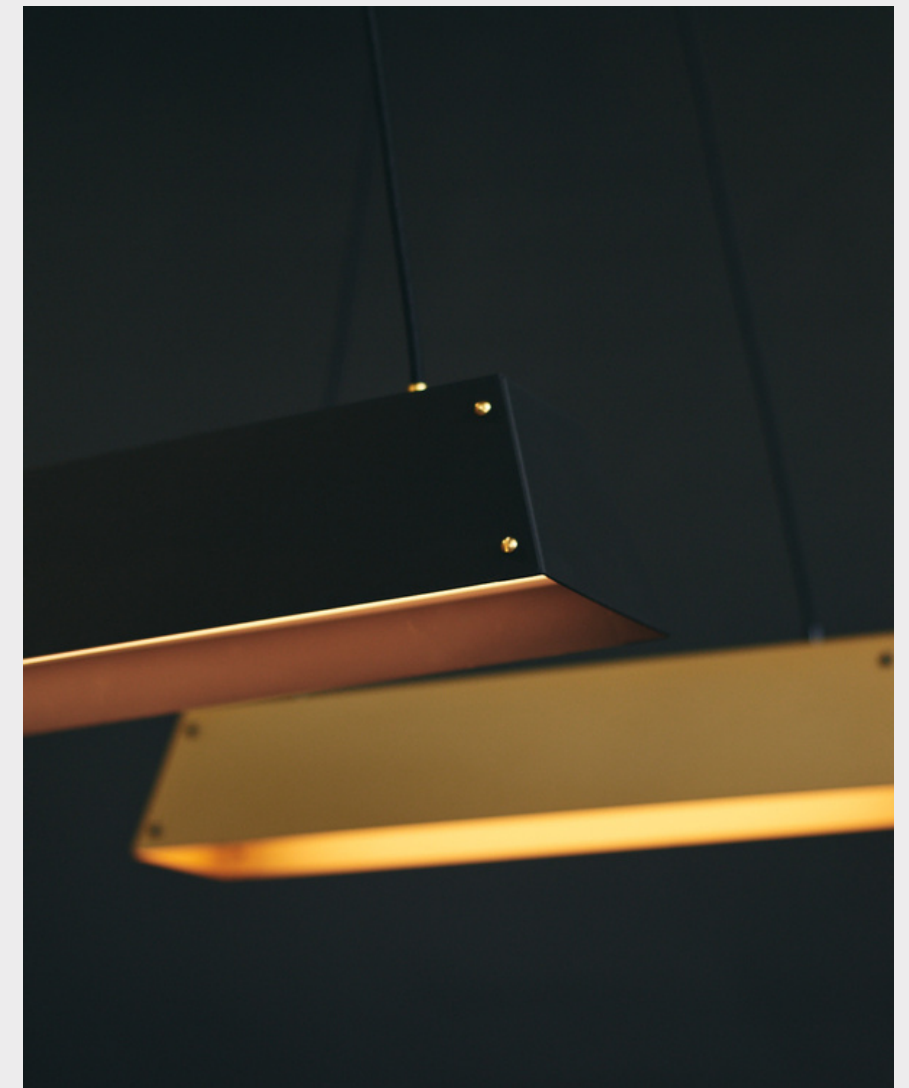

A perfect sphere refined to its purest form.  
Inspired by ideas of simplicity and  
weightlessness, our design eliminates visible  
power cables, allowing ECLIPSE to virtually  
float in thin air.

# EXPANSE

A linear system with an elegant-industrial flair. Modern, modular and minimalistic, EXPANSE comes standard with high output LEDs, acrylic diffusion for visual comfort, and a wide selection of joiners for configuring complex layouts.

# FRAME

Light and beauty in the most simplistic form. FRAME incorporates illuminated LED Panels to provide functional light in bold form. Frame can also be specified without light elements, providing additional artistic elements to your installation.

# PEARL

Inspired by the ocean's natural organic beauty, both ever-changing and classic, PEARL adapts to your space as it transforms with each viewing angle. The Pearl series is made with locally crafted hand-blown glass, and is available in 6" or 8" diameter.

Area 49

Area 49 Suspended LED Fixture

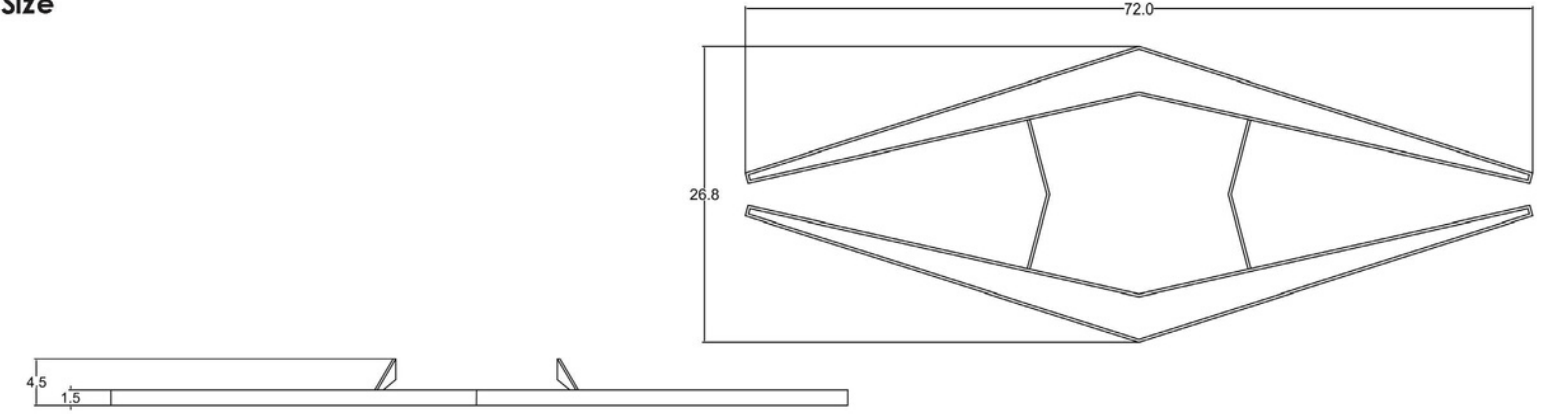

Description

Inspired by geometry, the AREA 49 is a double chevron shape that has a spacecraft look and feel. Area 49 is a play on the mysterious sightings at Area 51 with 49 representing our geological location on the 49th parallel.

Fixture can be customized, size (length, width), lumen output, and finish.

Eclipse

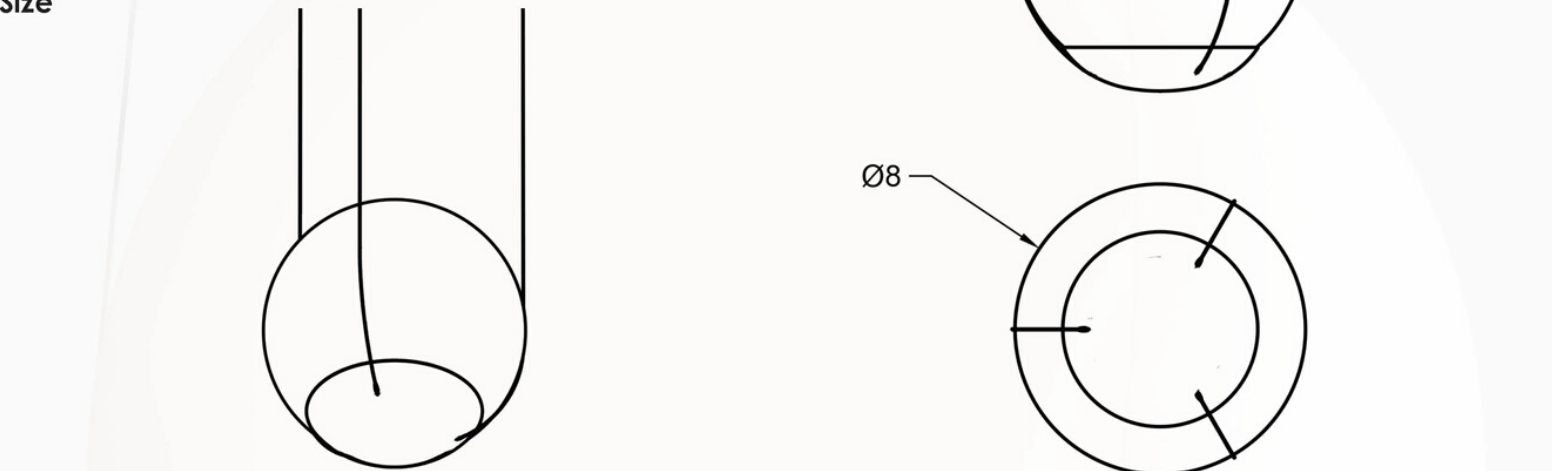

Eclipse LED Pendant

Description

Eclipse. A perfect sphere refined to its purest form, seemingly floating in space. Inspired by ideas of simplicity and weightlessness, our design eliminates visible power cables and allows Eclipse to virtually float in thin air. The family features stainless steel cable suspensions and advanced dim to warm LED technology. A truly technologically advanced approach to beautiful illumination

# Expanse

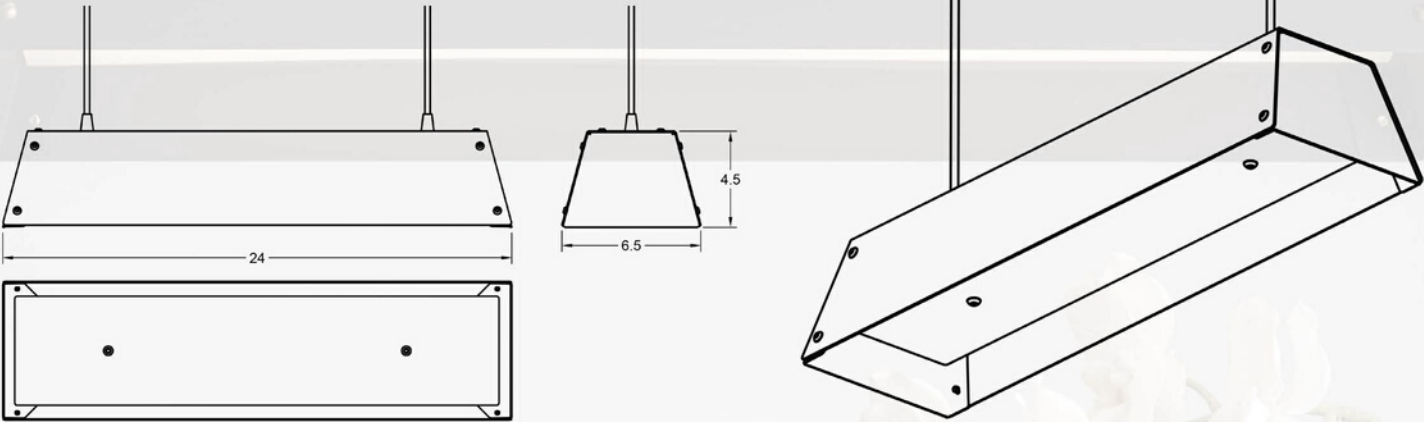

## Expanse Linear Pendant

### Description

Modern, modular, and minimalistic, Expanse brings a fresh approach to linear lighting. Using an entirely new production methodology, we have re-imagined linear lighting with modularity and elegance in mind. Expanse comes standard with our high output LED option and an acrylic lens/diffuser for visual comfort. Unique to Expanse is the integration of the LED driver within the fixture body. This allows for low profile canopy installations. The braided cloth cord suspension and other fine details make Expanse a stylish linear solution.

## Frame LED Pendant

### Description

Frame, beauty in the most simplistic form. Frame is the outline of a cube allowing one to see thru to the other side. Incorporated into frame is an illuminated LED Panel to provide functional down light. Frame can also be ordered with no lighting element to be used as an artistic element in an installation.

## Pearl 6 LED Pendant

### Description

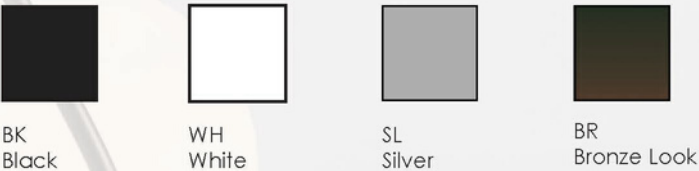

Pearl. Inspired by the ocean's natural organic beauty. Both ever-changing and classic, Pearl adapts to your space as it transforms with each new viewing angle. Locally crafted hand-blown glass evokes an organic soft glow. To produce its pearl-like beauty, Karice uses the latest LED technology and a unique proprietary dim to warm light module. Like a sunset over the ocean, Pearl effortlessly dims down to a natural warm glow.
